

## Woven Volcanic Rock Tape Withstands Heat Up To 1,300°F

VOLCANO WRAP (VWN) is made from continuous filament basalt fiber and is engineered for protection from temperatures up to 1,300°F. When wrapped around exhaust pipes, the unique construction creates an attractive and durable finished product.

Volcano Wrap is 25% stronger and provides a 300°F increase in temperature protection over fiberglass wrap. The product is very rugged, and will not exhibit any vibration damage over long periods of use.

The volcanic rock fiber wrap is easy to install and will provide years of protection and good looks.

- **High Temperature Resistance**
- **Easy to Install**
- **Resists Gasoline and Engine Chemicals**
- **Great Appearance**

Volcano Wrap can be terminated with our new ClampTite tool found on pg. 100

Volcano Wrap helps redirect the heat every race or every day in production, keeping engine areas cooler and performance results better.
